

The Seventh Day Sabbath Sought Out (1657)

by Thomas Tillam - Minister of the Gospel

Found by a Seventh-day Adventist Religious Liberty Attorney while researching at the Notre-Dame Library, this recently discovered book is probably one of the oldest known author or publishings, outside of the Bible, that recognizes the Seventh-day Sabbath would be a test at the end of time and would stand in distinct contrast to the mark of the beast, or the attempted change in "times and laws" by men. This pre-dates the Seventh-day Adventist church by nearly 200 years, and even mentions "the last great controversy". This demonstrates that this concept

is neither new nor uniquely Seventh-day Adventist and was, in point of fact, founded during the reformation! This is a very exciting find that we believe every christian should read and be aware of! To God be the glory!

Awake ye slumbering Virgins, the figtree is apparently budded, the signs of his second coming who is The Lord of the Sabbath, are so fairly visible, that although the day and hour be not known, yet doubtless this generation shall crown obedient Saints with everlasting Rest..."
